Instructions for rebooting the system

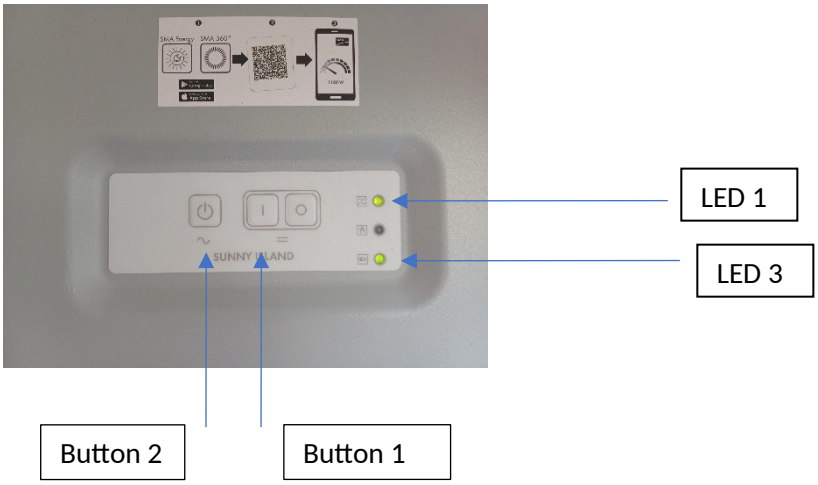

- Open the battery cabinet. The key is on the cabinet.

- Push the Switch bottom of the battery. Once, the color of the bottom go off. Push again the bottom. On the display, wait until it said OK in front of status.

- After 1 minute, the LEDs of the Sunny Island should be on. Initially, LEDs 1 and 3 should be illuminated. LED 1 should be orange. After 1 minute, LED 1 should turn green.

- If the LED does not turn on, follow these steps:

  Press button 1 until you hear a sound and LED 1 turns orange. Then, press button 2 until you hear a sound and LED 3 turns green.
